

Pacific Northwest Evergreen Foliage

westcoast EVERGREEN

These are staple crops in our verdant lineup of greens. Our rich greenery is distinguished by high quality, excellent value and a large diversity of foliage.

SALAL

AKA: Lemon Leaf

Available: Year-round
Stems 20 to 24 inches
Lasts 7 to 28 days +

The dark green leaves can be used as filler in arrangements and as a background or outline foliage.

BEAR GRASS

AKA: Indian Basket Grass

Available: Year-round
24 to 48 inches
Lasts 7 to 14 days +

Lighthearted, wiry and airy. Bear Grass extends floral arrangements beyond their perimeters. Pliable grassy basal leaves create limitless uses.

EQUISETUM

AKA: Horsetails, Ponytails

Available: Year-round
Horsetails: 40 to 47 inches
Ponytails: 25 to 27 inches
Lasts 7 to 14 days +

Add line and height with upright Horsetails. Slender, hollow, pale green sections with dark bands at joints, often accented by dark stem tips. Growth cycle produces "tip-less" stems in June and July.

HUCKLEBERRY

AKA: Huck

Available: Year-round
20 to 30 inches
Lasts 7 to 14 days +

Huckleberry is a wild, versatile green. Its flat stem structure and leathery shiny deep green leaves add interesting texture and shape to floral offerings.
